THIAGO SIMÕES

Cabinetry & Millwork Detailer | 3D Modeling

Cabo Frio, Rio de Janeiro, Brazil | simoest388@gmail.com

PROFESSIONAL SUMMARY

Cabinetry and millwork detailer with a background in architectural visualization and custom furniture projects. Produces technical drawings for installers and clients and develops models for CNC router fabrication. Currently studying Architecture and Urbanism at Estácio. Seeking remote opportunities supporting cabinetry businesses and design studios with technical detailing.

CORE SKILLS

Custom cabinetry and millwork detailing • Dimensioned drawings, sections and assembly details • 3D modeling for CNC router fabrication • Material and finish documentation • Interior modeling and visualization

PROFESSIONAL EXPERIENCE

Cabinetry & Millwork Detailer | Marcenaria Itajuru

2026 - Present | Rehired after an earlier visualization role

• Develop technical drawings for custom cabinetry, supporting installation and client review.

• Prepare dimensions, sections, component details and assembly information for residential millwork.

• Create models for CNC router fabrication and document materials, finishes and installation interfaces.

3D Modeler & Visualization Artist | Carol Alves Arquitetura

2 years | Prior to current role

• Produced 3D models and architectural renderings for the studio’s projects.

• Prepared visual presentations to communicate interior design proposals.

3D Modeler & Visualization Artist | Marcenaria Itajuru

1 year | Earlier tenure, before Carol Alves Arquitetura

• Created 3D models and rendered images for custom cabinetry and interior projects.

SELECTED PROJECT

Residential Millwork | Three Bedroom Environments

Prepared technical documentation for wardrobes, desks, beds, shelving, niches and wall panels. Combined overall views with dimensioned details, support structures, material references and installation notes. Technical drawing samples available on request.

SOFTWARE
